MAPS JUNIOR NEWSLETTER

JANUARY TO MARCH 2017-18

Dear Parent

Children are a parent's most valuable asset and every parent dreams about making their children into responsible, amazing people. Besides giving good education, imparting moral values is extremely important.

To make your children responsible society members, teach them moral values like honesty, loyalty, respect, self-reliance, self-discipline, patience, kindness, gratitude, forgiveness, personal responsibility and courtesy.

These values help in developing a strong personality for your child and that minimizes the possibility of having them go astray. It is said that from the early age children start differentiating between right or wrong and the first lesson comes from their parents. They see their parents as role models and try to follow in their footsteps.

There are little eyes upon you and they're watching night and day:

There are little ears that quickly take in every word you say:

There are little hands all eager to do everything you do:

And a little child who's dreaming of the day he will be like you.

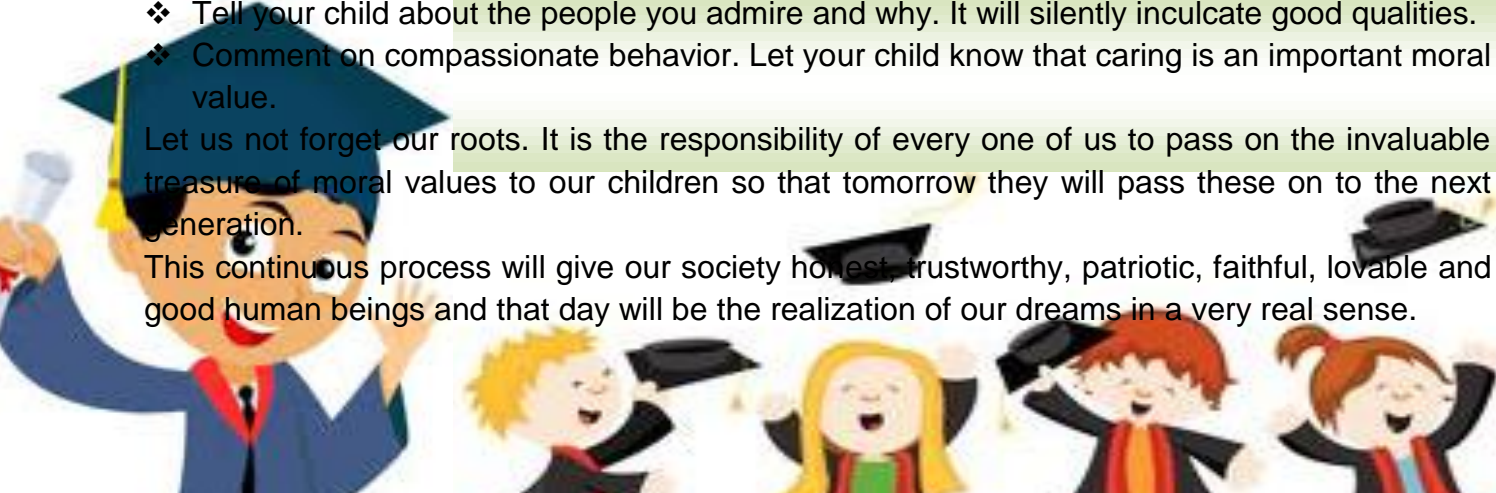

Set an example by following examples that you want your children to follow. Be honest if you want them to be honest.

Few easy steps to impart moral values

- ❖ Narrate patriotic, religious or ethical stories. Question them about the lesson they have learned.
- ❖ Be polite, respectful and considerate towards others.
- ❖ Media exposure plays a major role in our life. While watching the news or even a movie, discuss the different aspects and ask the child what he/she would have done in that situation. This will develop a sense of reasoning in children.
- ❖ While performing religious activities involve the child where you can. It generates faith and trust towards God.
- ❖ Listen respectfully to your child's ideas and wherever required correct them. This will boost their self-confidence.
- ❖ Spend quality time with children. The quality of time that you spend with your children has a close effect on what they grow up into.
- ❖ Provide opportunities for your children to help others. This will instill in them generosity.
- ❖ Involve your child in community service. It will generate an attitude of serving.
- ❖ Tell your child about the people you admire and why. It will silently inculcate good qualities.
- ❖ Comment on compassionate behavior. Let your child know that caring is an important moral value.

Let us not forget our roots. It is the responsibility of every one of us to pass on the invaluable treasure of moral values to our children so that tomorrow they will pass these on to the next generation.

This continuous process will give our society honest, trustworthy, patriotic, faithful, lovable and good human beings and that day will be the realization of our dreams in a very real sense.
