The school has been making contentious effort right from the beginning to develop healthy food habits among students. The students are sensitized through workshops about the importance of healthy food from time to time.

In the month of November and December the school has taken series of activities under the project Eat Right Challenge in the classrooms, playgrounds and through assemblies. "Save water"

"Can you imagine life without water?"

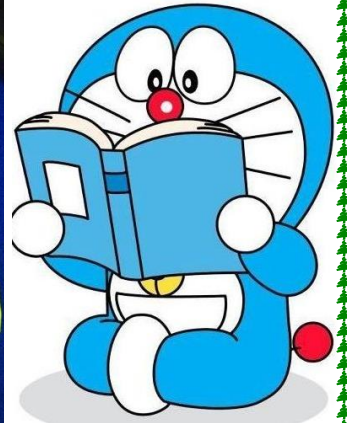

What would happen if all rivers dry up and we don't get water in the morning? Water is used for farming, giving water to plants etc. Some ways to save water are using buckets instead of pipes, take that much amount of water that you need. So, **SAVE WATER, SAVE LIFE.**
