

Dear Parent

To ensure the safety and security of the students, the school buses are equipped with **CCTV cameras, Speed Governors (to control the speed limit)** and **GPS System** (The Global Positioning System) , a space-based satellite navigation system that provides location and time information of the school bus in all weather conditions.

Looking at the recent unfortunate mishappening with the private van users, we hope the parents will surely think of opting for a safer mode of transport for their ward.

We expect the parents will certainly opt for school buses for their ward's safety.

The parents interested in the option for the school bus for their ward may contact Mr. Sushil Kumar, Transport Incharge at Senior Branch of the school near gate no – 1 or contact at 27041516, 27931819 or send your registration by clicking the following link <https://goo.gl/forms/DT0TnuML48f6V5zL2>.

Looking forward for your cooperation.

Thanks & Regards

Jyoti Arora
Principal
