### Classes I-V

### Month- April & May

Dear Parent

Vacation is an ideal time to spend with the children as it injects power, strength and energy in us. They provide opportunities to explore the strengths of the students and a chance to work hard with them to overcome their fears so that they emerge as confident leaders of tomorrow.

The session 2019-20 has begun with lots of new ventures of the school such as Reading Programme, Defence Programme etc. that are aimed for an enhanced learning and overall personality development of the young learners.

Being the equal partner in the journey of learning, it is expected that the parents keep a close eye on their child and praise them for every effort undertaken by them irrespective of the outcome. Being mentors, it is our prime duty to broaden their horizons, hence we must take them out of the their textbooks and let them discover the real joy of learning which is infinite .We must realise that children should be educated for the universe and not the university , it is only when the passion to learn and absorb is built can an individual acquire true success.

Significant consideration should be given to the students to acquire life skills and moral values that make a person worthy member of this society.

I would conclude with these wonderful lines which I read long time back , hope you would appreciate it and try to follow the same-

***“Do not ask your children***

***To strive for extraordinary lives***

***Help them instead to find the wonder***

***And the marvel of an ordinary life.***

***Show them how to cry***

***When pets and people die***

***Show them the infinite pleasure***

***In the touch of a hand.***

***And make the ordinary come alive for them***

***The extraordinary will take care of itself.”***

***Looking forward for your continual support and cooperation***

Thanks
