## NEWSLETTER – AUGUST 2022

**“An investment in knowledge pays the best interest.” The only person who is educated is the one who has learned how to learn and reproduce the ideas in a comprehensive way. This is the time of the session when children are neck deep busy in their studies and it is indeed a privilege for the children to get the opportunities to show their talent and inherent capacity side by side. In order to let the children explore more, the school organized various events and competitions so that the monotony of life breaks and the children get the chance to learn something beyond the text books.**
