A DECADE OF LEADERSHIP IN SUSTAINABILITY

Dear Mount Abu Learning Family
Namaste!

Ten years ago, when the United Nations launched the Sustainable Development Goals (SDGs), Mount Abu Schools stepped forward not just to embrace them, but to embody them. In this decade-long journey, through 50+ international partnerships, we have brought the world into our classrooms and taken Bharat to the world and its classrooms — showing how education, collaboration, and passion can together shape a sustainable future.

At the core of this transformation is our Global Citizenship Curriculum, a pioneering model that integrates all 17 SDGs into every aspect of school life. It is not an initiative but our very soul — empowering each global citizen to become a responsible leader and a changemaker.

Our efforts have earned us global recognition — from the Intercultural Achievement Award by the Government of Austria to platforms at UNESCO and beyond, positioning India on the global map of “Education for SDGs.”

Every step — our solar-supported campus, the LEGO recognition, or green innovations led by Global Citizens — is proof of our vision.

Mount Abu Schools stands as living testimony that a single institution, powered by purpose, can inspire a worldwide movement for peace, sustainability, and hope.
